

DH-XVR1B08-I(1TB)

8 Channels Penta-brid 1080N/720p Cooper 1U 1SSD 1TB WizSense Digital Video Recorder

Wiz Sense

Launched by Dahua Technology, WizSense is a series of AI products and solutions that adopt independent AI chip and deep learning algorithm. It focuses on human and vehicle with high accuracy, enabling users to fast act on defined targets. Based on Dahua's advanced technologies, WizSense provides intelligent, simple and inclusive products and solutions.

Series Overview

Dahua Technology, a world-leading video-centric smart IoT solution and service provider, debuted its new XVR series, S-XVR Series featuring max.full-channel SMD Plus to benefit customers from AI upgrade (The number of channels differs depending on the model. Please refer to the specifications below for information on the number of channels.). This series has been developed to reduce false-alarm rates and the cost of human surveillance, thus bringing great value to customers in search of products with accurate human/vehicle alarm to raise the security level of various indoor and outdoor facilities.

Functions

Internal SSD

Unlike the traditional XVR, S-XVR comes with the SSD preinstalled in the device. It is more energy efficient, and has stronger vibration resistance and better heat dissipation. S-XVR also saves you time on selecting the type of hard disk and installing it, greatly increasing your efficiency.

SMD Plus

With intelligent algorithm, Dahua Smart Motion Detection technology can categorize the targets that trigger motion detection and filter the motion detection alarm triggered by non-concerned targets to realize effective and accurate alarm.

Smart Dual Illuminators

With Smart Dual Illuminators technology, you can select Smart Illumination Mode for the system to automatically switch between IR mode and white light mode. It allows white light to be turned on when a target is detected by the SMD Plus/Perimeter Protection function of AI-enabled XVR. This significantly reduces light pollution at night. Together with other modes, including IR Mode and White Light Mode, the smart dual illumination technology can meet the requirements of a wide variety of scenes.

- Comes with an internal 1TB SSD, and can record videos for about 22 days.
- H.265+/H.265 dual-stream video compression.
- Supports Full channel AI-Coding.
- Supports HDCVI/AHD/TVI/CVBS/IP video inputs.
- Max 10 channels IP camera inputs, each channel up to 6MP; Max 40 Mbps incoming bandwidth.
- Long transmission distance over coax cable.
- Up to 4 channels video stream (analog channel) SMD Plus.

One-click Arming/Disarming

With just one click, you can enable or disable alarm linkages to show messages, send emails, output audio alarms and more, through the mobile app and platform.

AI Coding

Compared with H.265/H.264, AI coding can reduce more than 50% bit rate and storage requirements without loss of decoding compatibility, providing clear human and vehicle details.

Smart H.265+

Smart H.265+ Codec reduces bit rate and storage requirements by up to 90%, outranking standard H.264 video compression and eliminating the need to invest in a new camera.

Long-distance Transmission

The HDCVI system supports long distance transmission over coaxial cable and UTP, max. 700 m for 4K/4MP, 800 m for 1080P and 1200 m for 720p.

Audio over Coax

The integrated design can reduce wiring troubles which makes it much more cost-effective and convenient for installation.

Technical Specification

Network Mode

System						
Main Processor	Industrial-grade processor					
Operating System	Embedded Linux					
Operating Interface	Web; Local GUI					
SMD Plus						
SMD Plus by Recorder	4-channel: Secondary filtering for human and motor vehicle, reducing false alarms caused by leaves, rain and lighting condition change					
Audio and Video						
Analog Camera Input	8 BNC ports, supports HDCVI/AHD/TVI/CVBS auto-detect					
Camera Input	1. CVI: 1080p@25/30 fps, 720p@25/30 fps. 2. TVI: 1080p@25/30 fps, 720p@25/30 fps. 3. AHD: 1080p@25/30 fps, 720p@25/30 fps.					
IP Camera Input	Up to 10 channels of IPC access. 2 IP channels by default + 8 channels (analog channels are converted to IP channels) incoming bandwidth: 40 Mbps, recording bandwidth: 40 Mbps and outgoing bandwidth: 40 Mbps *After IP channels are added beyond the existing channels, the AI Function (SMD) will be disabled.					
Encoding Capacity	Main Stream: 8-channel: the 1st channel 1080N/720p@(1 fps–25/30 fps), others 1080N/720p@(1 fps–15 fps); 960H/D1/CIF@ (1 fps–25/30 fps) Sub stream: 8-channel: CIF@(1 fps–7 fps)					
Dual-stream	Yes					
Video Frame Rate	PAL: 1 fps/s–25 fps/s NTSC: 1 fps/s–30 fps/s 32 kbps–4096 kbps					
Video Bit Rate						
Audio Sampling	8 kHz, 16 bit 64 kbps					
Audio Bit Rate						
Video Output	1 HDMI, 1 VGA HDMI/VGA: 1920 × 1080, 1280 × 1024, 1280 × 720					
Multi-screen Display	When IP extension mode not enabled: 1/4/8/9 When IP extension mode enabled: 1/4/8/9/16					
Third-party Camera Access	ONVIF; Panasonic; Sony; Axis; Arecont; Samsung					
Compression Standar	-d					
Video Compression	AI Coding; H.265+; H.265; H.264+; H.264					
Audio Compression	G.711a; G.711u; PCM					
Network						
Network Protocol	HTTP; HTTPS; TCP/IP; IPv4/IPv6; Wi-Fi; 3G/4G; UDP; SMTP; NTP; DHCP; DNS; DDNS; P2P; UPnP; IP Filter;FTP; Alarm Server; IP Search (Supports Dahua IP camera, DVR NVS, etc.)					
Mobile Phone Access	iOS; Android					
Interoperability	ONVIF 22.06 (Profile T; Profile S; Profile G); CGI; SDK					
Browser	Chrome IE 9 or later Firefox					
Network Mode	Single address mode					

Single-address mode
